VOL. XXIII. NO. 161 GAINESVILLE, FLORIDA, WEDNESDAY, AUGUST 15, 1906 TEN CENTS A WEEK

FATHER AND LOVER FIGHT TO DEATH

Father Found, Couple In Room After Midnight.

DUEL WAS IN PRESENCE FO GIRL

Circumstances Caused Father to Shoot Young Man—Lover Returned the Fire and Father Fell Dead at the Feet of His Daughter.

Greenville, S. C., Aug. 14—Cowering in a corner of her bedroom Miss Nannie Drake Sunday at midnight saw her father, Thomas F. Drake, fight a pistol duel to the death with her lover, Allen Emerson.

After the exchange of several shots Drake fell dead with a bullet through his heart almost at the feet of his daughter and her lover, Emerson, staggered out of the room suffering from a severe but not fatal wound.

When persons who had been attracted by the pistol reports arrived they found the girl in hysterics over the corpse of her father and crying that she was guilty of his death

Drake, who is a wealthy planter, heard a noise in his daughter's room after midnight. Thinking there was possibly a burglar in the house, he took his pistol and went to the room. On entering the room he saw his daughter and Emerson under circumstances which caused him instantly to begin shooting.

Emerson sprang away from the girl, secured his pistol, which was on a table, and returned the fire.

The outraged father fired four shots but only one took effect, the bullet striking Emerson in the thigh. After being wounded Emerson fired the shot that killed Drake.

After Amerson killed drake he left the house and went to Anderson, where he surrendered. When the circumstances under which Drake was killed became known, there was so much indignation expressed against Emerson that he was brought here to prevent possible lynching.

Miss Drake is a beautiful girl and the scandal and tragedy have caused a great sensation.

Emerson is a cousin of Miss Drake. It is reported that the girl, overcome by shame and remorse, has fled.

University Farm Surveyed.

Athens, Ga., Aug. 14.—The Britain farm that was given to the University of Georgia last commencement by Dr George Foster Peabody, Chancellor Barrow and Mr. T. J. Shackelford is now being surveyed topographically by Colonel E. L. Griggs, Professor C. M. Strahan and a number of the university students. The data will be sent to Dr. Peabody and a map of the farm will be made similar to that made of the other property of the university by Mr. Chas. W. Leavitt, of New York. This survey will be completed within the next few weeks.

Murdered and Robbed.

Birmingham, Aug. 14.—Chas. Mantillio, an Italian merchant of Ensley, was waylaid and murdered Monday near Owenton, a suburb, while enroute from Ensley to Birmingham in a wagon. He was shot in the back and must have died instantly. His pockets were turned inside out when the body was found and some of his money was lying on the ground near by. The authorities suspect a negro who worked for Mantillio and who is missing. One man has been arrested on suspicion, but his connection with the murder has not yet been established.

Nashville Firm Bankrupt.

Nashville, Tenn., Aug. 14.—Berg & Ellis, one of the largest retail clothing establishments in this city, have filed a petition in bankruptcy. The liabilities of the firm are placed at $55,927.06. A number of the big concerns in the east are among their creditors.

Uncle Sam Buys Gold.

London, Aug. 14.—The United States has secured the bulk of the gold available on the market, about $15,000,-

DOUBLE FARE CAUSED TROUBLE

Justice Gaynor Says Transit Company Has No Right to Demand It.

New York, Aug. 14.—The disturbances on the Coney Island surface cars and elevated trains last night police Commissioner O'Keefe and the Brooklyn police looked forward to Sunday because of Justice Gaynor's statement of Saturday that Brooklyn Rapid Transit company did not have a right to demand a double fare to the island, took place on schedule time. They lasted from early morning until early Monday morning, when the overwrought nerves of the people permitted a panic following a shooting affray in which four persons were dangerously injured by an unknown man, who escaped. At daylight belated ones were still making their way to the city.

More than a quarter of a million people started to Coney Island during the day, and most of them got there, but only after they had passed through trying experinces. And while this enormous crowd was fighting its way to the pleasure resort—incidentally making the record day of the summer—cars were stalled in lines that extended for miles, while the Brooklyn Rapid Transit conductors argued and pleaded with passengers to pay the second fare and finally wound up by dragging obstreperous passengers from the cars and throwing them into the streets by thousands.

The company did this with the aid of 250 special policemen and a corps of inspectors. A similar number of regular policemen were on hand and they tried to preserve order but failed to do so.

Men, women and children were forcibly ejected from the cars, from 50,000 to 70,000 were compelled to walk for distances of from 1 to 3 miles.

The first steps were taken in scores of damage suits, and the Brooklyn Rapid Transit's men defied Deputy Police Commissioner O'Keefe, of the city of Brooklyn. Lawyers and the lawyers' clerks swarmed about the points where passengers were put off and took names of witnesses.

As an outcome of the day's doings a committee of citizens is being formed in Brooklyn to enforce Justice Gaynor's ruling. Sheriff Flaherty, of the county of Kings, was informed late Sunday night of the purpose of the committee intended to call on him as sheriff to protect them as citizens in upholding their rights.

Tents of Soldiers Blown Down.

Austin, Tex., Aug. 14.—A terrific rainstorm visited this section Saturday night and Sunday morning, practically wrecking the federal military camp at Camp Mabry. A very high wind attended the rainstorm and this blew down a good many of the tents that were not properly roped. The wreckage has all been cleared away, however, and the soldiers are in splendid shape once more. During the storm Captain Walker Ellis, of the Fourth Texas infantry, was badly stunned by lightning, while crossing the review grounds in the height of the storm, as was a negro man who was driving his hack. Both were unconscious for an hour.

No Mercy Shown Mutineers.

Helsingsfors, Finland, Aug. 14.—The trial by courtmartial of the Sveaborg mutineers commenced Saturday, and Lieutenants Kochanovsky and Emilianoff, aged respectively 20 and 21 years, and five soldiers were at the first sitting found guilty and condemned to death and all were shot and buried in a common grave without ceremony. Kochanovsky's father is a colonel of the guards at St. Petersburg. Emilianoff's mother appealed to the emperor by telegraph for a reprieve, but was unsuccessful. Emilianoff's fiancee's arrest compromised his case.

Arrested on Charge of Conspiracy.

Washington, Aug. 14—Governor Magoon, of Panama, advised the state department Monday of the arrest of 12 men on the isthmus charged with plotting to kill President Amador and overthrow the republic. The dispatch says that eleven of the men are Colombians, one a Mexican and the other a Nicaraguan. All of the men are in jail. The latter were [illegible]

BALLOON IN FLAMES; TWO MEN DROP

Both Aeronauts Were Badly Burned and Bruised.

MEN REMAINED IN THE BALLOON

When High Up in the Air there Was a Muffled Report, a Tiny Flash and The Balloon With Its Two Occupants Began to Decend Rapidly.

New York, Aug. 14.—Wilson Ellinquist, 38 years old, of Brooklyn, and Joseph Moss, aged 24, of Williamsburg, professional aeronauts, were severely injured by burns and contusions from falling from a burning balloon at Flatbush Sunday night.

For several weeks they have been managing ascensions and doing parachute feats for an amusement concern at Bergen Beach. Seeking to vary the attraction, it had been advertised that the men would make an ascension Sunday night from Flatbush and try to land near the show grounds at Bergen Beach. They used a large, hot air balloon and a great crowd assembled to witness the start.

The big bag shot into the air with the two performers waving their hats from the basket. When it reached an altitude of about 200 feet, there was a muffled report, a sudden inflating of the balloon sidewise, and a shout of terror from the aeronauts.

A small flame was seen to curl out on one side of the bag, puffs of smoke began to envelop it, and then the bulky thing commenced to settle rapidly. Three thousand throats in unison uttered exclamations of horror as the balloon gained momentum in its descent. The flames grew brighter, the bag began to waver, and it seemed to collapse when about 50 feet from the ground and settle down, a mass of smoke and fire.

Both men clung to the burning basket until they were near the ground. Moss had climbed on the outside and hung by his hands but Ellinquist remained in the basket with his head bent forward, trying to escape the fiery draughts.

When the flaming mass of cotton and ropes struck the ground, fifty men sprang forward and dragged the men from their perilous position. Both were unconscious. Moss had dropped about 20 feet, but the other man held on and fell with the basket. An ambulance was summoned, and it was found that Moss had suffered severe internal injuries, and both were critically burned.

RAID SALOONS ON SUNDAY.

Governor Determined to Enforce Prohibitory Law in Kansas City.

Kansas City, Aug. 14.—The saloon raids at Kansas City, Kans., waged so persistently a month ago by C. W. Trickett, the assistant attorney general appointed by Governor Hoch to enforce the prohibitory law, were resumed Sunday, when that official made the rounds of the "joints" in an automobile and arrested the proprietors of three places, where liquor was being sold.

Attorney Trickett is in receipt of the following message from Attorney General Coleman, at Topeka, which refers to several damage suits recently brought by saloon keepers, whose property has been destroyed by Trickett's order:

"Pay no heed to damage suits; all the power and resources of the state are pledged to defend you and vindicate the supremacy of the law."

Five Persons Drown in River

Davenport, Wash., Aug. 14.—Five persons prominent in social life of Davenport, who had been enjoying an outing on the banks of the Spokane river about 12 miles northeast of here were drowned Sunday. Four of the drowned sacrificed their lives in an attempt to save others. One after another they plunged into the river, only to be drawn down at her by the whirlpool or the undercurrent. L. F. Magee has returned to Davenport with the body of Mrs. Rogers.

MAN ASSAULTED ON STREET CAR

Was First Knocked Down With Stick and Another Man Cuts Him.

New York, Aug. 14.—While a passenger on a trolley car proceeding along the Bowery early Monday, Preston Machleny, 41 years of age, a stage carpenter of Pittsburg, was cut and badly wounded with a razor in the hands of a man who made his escape.

Machleny was accompanied by a woman who gave her name as Mary Cook, who recently came to New York from Pittsburg. She fainted. Both the man and the woman were taken to a hospital in an unconscious condition. As Machleny and the woman were boarding the car at Rivington street, a man struck Machleny with a stick and knocked him down. Machleny picked himself up and was assisted aboard the car. Soon after the Pittsburg man took his seat, another man jumped aboard the car and rushed at Machleny with a razor. Before any one could interfere the assailant slashed Machleny twice with the weapon, almost severing the jugular vein. After being revived, Machleny told the police he did not know the name of either of his assailants.

WILL WAGE WAR ON WORMS.

State Entomologist Begins Vigorous Campaign Against Pest.

Atlanta, Aug. 14.—A systematic campaign will be waged against the army worms in the southern portions of the state by the department of entimology. State Entomologist Smith has already begun vigorous tactics which have ben devastating the crops in the vicinity of Albany and Americus.

Letters have been sent out suggesting remedies to exterminate worms. It is recommended by the state entomologist that planters run long burrows with a plow wherever the worms are found in the grass in which the worms will fall. They can then be easily destroyed by burning grass or straw over them.

Another method suggested is to check the advance of the worms by sprinkling the grass with poison.

As the worms will go into the ground during the next two weeks preparatory to laying their eggs for future generations, it is wise that they be destroyed before they can disappear.

Assistant Entomologist A. C. Lewis has been in South Georgia for several days investigating the conditions, and several specimens of the worms have been forwarded to the department.

Fortieth G. A. R. Encampment.

Minneapolis, Aug. 14.—Veterans by the thousands and other visitors by the hundred thousands, have been pouring through the streets of Minneapolis since dawn Monday. This is the first day of the Fortieth Annual Encampment of the Grand Army of the Republic, which is to continue throughout the week and despite the fact that the soldiers are so rapidly lessening in numbers, it promises to be one of the most successful ever held. Aside from the encampment itself, there will be annual meetings of the many affiliated societies, such as the Woman's Relief Corps, Ladies of the Grand Army of the Republic, Daughters of Veterans and an almost indefinite number of military organizations. The social events planned for the entertainment of the old soldiers and their wives are many and elaborate.

Tried to Delay Ship's Passage.

Gravesend, Eng., Aug. 14.—Nine seamen of the steamer Minnetonka, which arrived Monday from New York were charged in police court with having conspired to delay the boat's passage from New York. It is alleged they deliberately reduced the steam pressure. The men complained of bad food.

Man Killed in Auto Crash.

Houston, Tex., Aug. 14.—An automobile turned over Monday on a country road near Houston, and George Nickelson, a passenger, was instantly killed. J. Camp Dean and a Mr. Drake were hurt, but will recover.

Three Policemen Murdered.

St. Petersburg, Aug. 14.—Sunday night three policemen were murdered in St. Petersburg one in Moscow and [illegible]

FOUR WOUNDED BY UNKNOWN MAN

After Wounding Four Persons Man Fled To Ocean.

MAN SUCCEEDED IN ESCAPING.

With the Still Smoking Revolver in His Right Hand, the Man Threatened With Death Any One Who Would Pursue Him.

New York, Aug. 14.—While Oceanic was still crowded early Sunday, an unidentified man pulled a revolver, fired two shots into the back of a waiter at Staten's restaurant and then turned the weapon into the crowd and fired four times as quickly as he could pull the trigger.

Four persons lay wounded on the board walk when the man fled toward the ocean, threatening anybody who would pursue him.

The injured, three of whom may die, are:

Fitzpatrick Thomas, 25 years old, of Brooklyn, shot in breast and side, may die.

McDonald Thomas, 19 years old, of Newark, N. J., shot in the back, may die.

Annie Smith, 20 years old, of Williamsburg, shot in thigh and leg, serious.

George White, 26 years old, Coney Island, shot in the back, may die.

At the time of the shooting a crowd was pouring from the restaurant. In the throng were many women. At the sounds of the shooting and the screams of a woman who witnessed the shooting, the crowd came from all directions.

As they fled the man deliberately turned the weapon toward them and as fast as he could pull the trigger, he fired the leaden messengers into their backs.

As shot after shot rang out, and the men and women fell to the walk, screaming, a panic broke over the crowd.

Women were thrown to the walk as men ran over them in an effort to reach a place of safety.

The stranger defied any one to follow him. He had the revolver in his right hand and laughingly shouted:

"The man who follows I will kill."

No one ventured to approach him. He jumped over a railing and vanished in the direction of the ocean.

Fully ten thousand people stood at the entrance to the Bowery and from them a cry swelled that the murderer must be lynched. They broke down all police barriers and forced their way to the Bowery, overrunning the physicians, whom the police had summoned.

Down on the sands, in the direction which the assassin took, the crowd poured. Every avenue of escape was closed.

It was generally understood through the leaders, self-selected, that the man who fired the shots should be hanged from a pole in Surf avenue.

The already excited crowd accepted the idea with satisfaction, and led by the police every nook and corner of the place was searched.

Captain Harkins, in charge of the Coney Island police station, quickly strung out a long line of men along the ocean front. He had the exits guarded as far as Brighton beach, and at every terminal of the island, men searched for a man dressed in a dark suit of clothes and wearing a fedora shaped straw hat. He was described as being short, and with a smooth face.

Two big searchlights were played on the beach early today to assist the policemen and thousands were aiding the authorities in a search for the assassin.

Trains Collide; 15 Injured.

Ft. Worth, Tex., Aug. 14.—Two passenger trains on the Chicago, Rock Island and Gulf railroad, collided in the local yards at noon Monday, injuring 15 persons, two seriously. W. O. Stevens, a banker of Bridgeport, Tex., and Frank Poore, of the same place, were seriously hurt and were taken to the hospital. The trains collided in the outskirts of the city.

SAD DROWNING OF A PROMINENT MAN

Major S. C. DePass Met Death in Saw Grass Lake Tuesday.

WAS A WELL KNOWN MAN

Was Father of Dr. M. H. DePass, and Was Quite Popular Throughout Florida—Remains Recovered Late Tuesday Afternoon.

Information came from Archer Tuesday afternoon to the effect that Major S. C. DePass, father of Dr. M. H. DePass, and one of the most widely known and most prominent citizens of this section, was drowned while fishing in Saw Grass lake, four miles distant from Archer, sometime during Tuesday afternoon.

From the information obtained, it appears that Major DePass and his friend, Judge J. D. Chamblin, were fishing from a boat, when the boat overturned and they were dumped into the water. The boat, which appeared to be waterlogged, sank as a piece of stone, and as neither of the men could swim, they were left helpless. Judge Chamblin managed to get a board which was floating nearby, and endeavored to help his friend, but it was impossible to reach him, and he sank the third time and never came to the surface again.

Judge Chamblin managed to reach the shore and spread the news. In a short time there were a number of residents of the Saw Grass lake neighborhood dragging for the body, which was recovered in about an hour and a half, and which was taken to Archer, his home. The body will probably be held until the arrival of relatives, some of whom are now quite a distance away.

Major DePass was well known and popular. He was a brother of Rev. J. P. DePass of Live Oak, well known throughout Florida, and had other relatives prominent in Florida.

Friends of Dr. DePass, son of the deceased, extend sympathy at the sad and sudden ending of this noble life.

TROUBLE AT ROCHELLE.

Information Received That White Man and Negro Had Vigorous Fight.

Information was received in this city Tuesday to the effect that a white man named Weeks and a negro, the name of whom could not be learned, indulged in a "free fight" on Tuesday morning, when the negro was seriously injured.

The party who brought the information was passing through on the train from Hawthorn. He did not know the particulars, but stated that he heard at the station that the fight occurred, and that the negro was the aggressor, and used a big knife. Mr. Weeks, however, finally succeeded in getting the knife away from his antagonist, and there would have been some serious trouble sure enough had not outside parties interfered. As it was, notwithstanding that the negro had the knife, he was considerably beaten about the face and shoulders, which probably had a tendency to keep him from striking with the knife.

No arrests had been made from last reports.

MR. CROM IS PLEASED.

He Thinks Gainesville Has Made Wonderful Progress Recently.

Postmaster George C. Crom of Ocala returned to his home yesterday, after a brief visit to relatives here. Mr. Crom is one of the most prominent citizens and Republicans of Florida. He has many friends here and elsewhere in the State who are always glad of an opportunity to meet him.

Speaking of Gainesville and its growth, Mr. Crom said: "You know I was always pleased with Gainesville. There are two reasons, if not more. The principal reason, however, that my 'kin folks' live here, and the second reason is because I know the Gainesville people are hustlers and deserve to be successful."

Mr. Crom left on the noon train for home, after spending two days delightfully here.

Killed by Electric Current.

Cincinnati, Aug. 1.—Emerson Montjar, aged 16, was killed by an electric current and his mother, who attempted to rescue him, was fatally injured at Withamsville, Clermont county Sunday. The boy threw a coil of small wire over the heavily charged wire of the traction line, but was instantly killed.

BUILDING BOOM CONTINUES HERE

Many New and Handsome Buildings Contemplated.

GRAHAM AND HILL BLOCKS

It is Stated That Plans Are Being Prepared For Them, and That They Will be Among the Most Modern in Florida—Other Building Notes.

The building of Gainesville continues to grow, and hardly a day passes but what we can hear of new business blocks or residences going up or contemplated.

Among the latest and most important improvements here is the erection of a handsome office building by Lee Graham on East Main street, between Liberty and Mechanic streets, on what is known as the Hyde property. It is understood that this building will be one of the handsomest and most modern in this section, and a credit not only to the owner but the city. Plans it is understood are now being arranged for this building, immediately after the acceptance of which work will begin. The building will be either of artificial stone or pressed brick.

Mr. Graham, who purchased this property a few months ago, has removed the residence so long occupied by Mr. and Mrs. Geo. W. Hyde, and is rebuilding with the same material a residence on West Church street, No. 408.

It is learned by good authority that L. L. Hill is having plans drawn for an elegant three-story brick building on the corner of East Main street N., and East Liberty street. This building will be located upon the same site as the building now occupied by Saunders & Earle, and with its completion the entire east side of the square will be of brick.

In all, building in Gainesville continues active, and the class of buildings would be a credit to any city the same size.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine for those troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

Nervous? There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after. We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

MRS. MILLER MADE PROFIT ON PEARS

Shipped Two Hundred Barrels From Her Orchard.

FRUIT BROUGHT GOOD PRICE

Product Was of Choicest Variety, and Means Good Prices in the Northern Markets—A Business Woman Who Makes Money on Unpopular Crop.

Mrs. M. E. Miller, who owns a small but well kept pear orchard at Kanapaha, near Arredondo and a few miles southwest of Gainesville, is happy over the fact that she has made a good thing financially from the crop this year, for the season just closing.

Mrs. Miller, who is a widow lady, had the orchard planted about seven years ago. About three years ago, notwithstanding that she had a nice home, comfortably arranged, on account of her son and daughter she left Kanapaha and followed them to Daytona, thence to Jacksonville, where she is still residing, except in the pear season, when, with her son, George, she comes to personally superintend the gathering, packing and shipping of the fruit.

It has been said by horticulturists that there is little or no money in the raising of pears. This fruit appears to be a prolific yielder, as a rule insipid in flavor, and hardly worth the picking and packing; but Mrs. Miller's orchard has always been a paying one, for the reason that the variety of her orchard is something extra in quality, and because under her supervision the fruit is gathered and handled so nicely.

From Mrs. Miller's orchard the past season was shipped two hundred barrels of as fine pears as ever left Florida or any other State. They were choice, and brought choice returns, with the result that Mrs. Miller, as usual, has done well.

Mrs. Miller is still at Kanapaha with her son, but expects to return to Jacksonville as soon as her business affairs with the orchard are concluded.

Prof. Foskett's Collection.

Prof. A. J. Foskett, the piano tuner and musician who is well known in this section, manifests a great interest in the collection of souvenir postal cards. Prof. Foskett, who has traveled extensively in this country and abroad, has many friends, all of whom remember him with these tokens of esteem. He has now in his album more than 2,000 cards, from every section of the globe, which are very interesting to his friends.

In Self Defense.

Major Hamm, editor and manager of The Constitutionalist, Eminence, Ky., when he was fiercely attacked four years ago by piles, bought a box of Bucklen's Arnica Salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. 25c at all drug stores.

Woman's Assailant Treed.

Loganport, Ind., Aug. 13.—Nearly 100 men are beating the woods around Lewisburg in search of the assailant of Mrs. David Cripe, for whom a reward of $300 was offered. Word has come that he had been seen and in a driving rain neighbors of Cripe renewed the chase.

Man Kills Wife, then Suicides.

Nashville, Aug. 14.—A Dresden, Tenn., dispatch says that Joes Castleroom, aged 70, slipped into the room of his divorced wife a few miles west of that place at an early hour Monday morning and after murdering her, committed suicide.

Longworths Are Back Home.

New York, Aug. 14.—Mrs. and Mrs. Nicholas Longworth arrived from Europe Saturday on the steamer St. Paul. They were met at the quarantine station by the naval yacht Sylph, and proceeded to Oyster Bay to visit President Roosevelt.

Russia Will Build More Ironclads.

St. Petersburg, Aug. 14.—According to the Bourse Gazette, the naval construction program of the ministry of marine includes ironclads of 20,000 tons, capable of steaming 21 knots an hour, to be constructed in Russian yards.

L. C. LYNCH WILL BE NEXT POSTMASTER

His Name Was Recommended by Republican Organization.

WILL MAKE A GOOD MAN

Thoroughly Competent and Popular, He Will Serve the Patrons of the Gainesville Postoffice in a Manner Obliging and Satisfactory.

It is a settled fact that Louis C. Lynch will be the next postmaster of Gainesville, to succeed Postmaster George J. Arnow, recently deceased. The recommendation has been forwarded to the President at Washington, and within the next ten days the appointment will probably be announced.

There has been considerable speculation as to who would succeed Postmaster Arnow in this position. There have been several aspirants, all of whom were good and competent men, perfectly qualified for the position, but under the circumstances the plum naturally falls to Mr. Lynch, who has been confidential secretary to Hon. Walter G. Robinson, register, and Hon. Henry S Chubb, receiver of the United States land office, for several years.

In speaking of the recommendation which had been made Col. Chubb, who is chairman of the Republican State Central Committee, said that he realized and appreciated the ability and competency of all aspirants, but ingsmuch as Mr. Lynch had been so closely allied with the executive department of Republican State politics, he considered that it was no more than right and proper that his name should be recommended.

Notwithstanding that Mr. Lynch is a young man, having just passed his thirty-seventh year, he has always been active in politics and social life. Probably no man of his age in the Republican ranks has worked more faithfully or accomplished more for the good of the party in Florida. He is not only prominent in politics, but also in secret societies and socially. He is at present vice-grand chancellor of the Knights of Pythias of Florida, and past exalted ruler and past grand of the Independent Order of Odd Fellows of the State. He has also served the city as alderman, and held other public positions with credit. In all, he is a progressive and deserving citizen, and will give satisfaction in the responsible office to which he has been recommended.

Mr. Lynch has been for several years connected with the United States land office here. He is a young man well known and popular, and his appointment will give general satisfaction.

The Lid in Nashville.

Nashville, Tenn., Aug. 13.—The city council has passed on final reading the bill closing saloons from 12, midnight, until 5 a. m.

JUSTICE COLMAN'S COURT.

Ellen Stanley Et Al. Mixed Up in a Row in Spring Hill.

There was something doing in Justice Colman's court Tuesday, and it goes without saying that the Justice was happy. He loves to have "something doing" in his court—not because he loves to see people in trouble, but because he loves to bring justice out to those whom he decides deserve it.

Ellen Stanley, a chocolate-colored damsel of the section of Gainesville known as Spring Hill, is what they term in that section a "pullet." This is no reflection on Miss Ellen, who is very popular and most widely known in the circle in which she moves. But Ellen became very much provoked with some remark or some insinuation which had been flung at her by Edna Carlisle, another young lady of the snuff colored persuassion, and to make a long story short Ellen had a hatchet. She came the George Washington act, but instead of a cherry tree it happened to be Edna's head. Without warning Ellen landed the hatchet just about where Edna parts her hair. The neighbors thought but little of it, as Ellen was frequently in the habit of cracking cocoanuts, and they labored under the impression that she had brought a cocoanut home and was endeavoring to "investigate" its contents. After Edna had made a couple of squeals, however, they began to realize that there was something more than the ordinary cocoanut-breaking going on, and it is said interfered.

After hearing the evidence in the case Justice Colman decided that the defendant was guilty, and assessed a fine of $10 and costs with an admonition to be good in future, and try and bury the hatchet, as it had in this instance proved a rather expensive proposition.

AN AUTOMOBILE TRIP.

Messrs. Fowler and Cushman on Short Tour in Cadillac Machine.

J. R. Fowler and A. M. Cushman left Gainesville Tuesday morning in an automobile, Cadillac, ten-horse power, for Archer, Williston and other points. They expected to return Tuesday night, and drove the machine, which belonged to Mr. Cushman, for a thorough test. They made the trip all right, returning home in plenty of time for supper.

Mr. Fowler is quite an enthusiast when it comes to automobiling, and understands a machine thoroughly.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

A BRILLIANT WEDDING.

Pearson-May Nuptials at Forest Grove Largely Attended.

Forest Grove, August 14.—A beautiful church wedding was solemnized at the Forest Grove Church on the evening of August 8th, at 8 o'clock. The contracting parties were Miss Rosa M. May, the beautiful and accomplished daughter of Mr. and Mrs. W. M. May, and Mr. Ernest C. Pearson, a man of sterling worth residing at Dutton.

The church was beautifully and tastefully decorated with moss, ferns, ivy, geranium and roses, there being an alcove of moss, ferns and ivy in which the bridal party stood during the ceremony. In each aisle was an arch of flowers, suspended from the top of which was the initial letters of bride and groom.

Promptly at the hour to the strains of Mendelssohn's wedding march, played by Miss Mamie Stork of Alachua, the bridal party entered the church, J. F. Davis of Alachua ushering groom and attendants down one aisle and M. H. DeLand of Williston ushering bride and attendants down the other. Miss Lessie May, sister of the bride, was maid of honor and Mr. W. F. Hughes was best man. Miss Lottie Teeter of Rex, Miss Eva Powell of Lake City, Mr. C. P. Dennis of Dutton and Mr. G. H. May of Jacksonville were the other attendants. The bridesmaids were dressed in beautiful white organdies and carried bibles draped in white ribbon. The bride, with a long veil, orange blossoms in her hair, and attired in a beautiful white silk dress, looked her very best. In her hand she carried a lovely bouquet of white carnations tied with white satin ribbon. The groom wore the usual conventional black.

The bride and groom faced the audience and the attendants, standing in the rear in a "V" shaped arrangement in the alcove, gave the friends and relatives a full view of each one—truly a beautiful sight. In this veritable tropical flower garden, and while soft music was played the ceremony was performed in a very impressive manner by Rev. W. C. Foster, pastor of the Baptist church of Alachua.

A reception was given at the bride's home immediately after the ceremony. The evening was spent very pleasantly indeed. Refreshments were served.

A toast to the bride was proposed by Col. I. E. Webster of Gainesville, and her "health, happiness and prosperity" was drank.

Never before has such a crowd congregated in Forest Grove for any occasion. This, together with the many beautiful and useful presents, attested to the popularity of both bride and groom. On the two immense tables loaded with presents were seen many cut glass, rare china dishes, table linen, etc. One of the most beautiful presents was a handsome suite of furniture presented by Mr. Pearson's associates of the Dutton Phosphate Company. At a late hour their friends departed wishing for Mr. and Mrs. Pearson a long life of wedded bliss. They are now at home to their friends at Dutton. May they have a long and happy life, and may there be just enough clouds in their lives to make the sunset a glorious one, is the wish of

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to-date livery.

Bus will meet all trains.

In addition to The Breakers it has been possible to add the use of the Clarendon bath houses, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management.

The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season.

For rates and reservations apply to BERT J. HOLT, Seabreeze, Fla.

Slander is a blighting sirocco—the base, foul, cloven-footed slander—like the loathsome worm leaves a path covered with slime. How truthful it has been said: "Living, he is a traveling pest and worse, dying impertinent, his soul too deeply stained for hell." How often do we hear the slanderer's tongue warbling his song of disgrace on the street.

It is not generally known, but nevertheless a fact, that there are people still living who can remember the time when tomatoes were raised merely for their beauty as we now raise roses. While its beauty was admired it was considered like the poisonous oak, dangerous to even handle except by "dark complected" persons. Years of acquaintanceship, however, wore off its superstition and a few "foolhardy" actually owned up to having tasted the fruit. From this small beginning has gradually grown a use that makes today an industry with a combined capital of over thirty millions of dollars, which disburses millions of dollars to its employes each year and aggregates an output of two hundred and forty million cans.

One hour a day withdrawn from frivolous pursuits and profitably employed would enable any man of ordinary capacity to master a complete science. One hour a day would make an ignorant man a well informed man in ten years. One hour a day would earn enough to pay for two daily and two weekly papers, two leading magazines and a dozen good books. In an hour a day a boy or girl could read twenty pages thoughtfully—over seven thousand pages, or eighteen large volumes in a year. An hour a day might make all the difference between bare existence and useful, happy living. An hour a day might make—nay, has made an unknown man a famous one, a useless one a benefactor to his race. Consider, then, the mighty possibilities of two, four, yes, six hours a day that are, on the average, thrown away by some of our young men and women in their desire for fun and diversion.

SEVENTY MILLIONS INCREASED PROFITS.

How the trusts and combines are plundering the American people is shown by the enormous profits made this year by the Steel Trust. Every one pays their share of the vast toll that this gigantic combination takes from the grist run through its hopper. "On March 3, 1897," says The New York World, "just before the party of high prices took possession of the government, and when there was no Steel Trust, American steel rails were selling in the market at $18 to $20 per ton. Foreigners can still get them for that, but Americans have to pay the trust $28—an increase of from 40 to 50 per cent. The trust has maintained the $28 rate for home customers without variation since it was organized, representing a net increase of profits of over $70,000,000 above a normal amount for that time. And Mr. Morgan enthusiastically "stands pat" for the retention in power for an administration that stands for so much prosperity.

Do not imagine that because you have no railroad stock, or even if you never rode on a steam or street railroad, that the price of steel rails does not affect your pocket. In fact everything you buy is advanced in price by the freight that is charged, for we cannot expect low railroad rates and expensive railroad construction. Then, just think of the large number of articles of steel or iron that you daily use, all of which are greatly increased in price by the extra toll the Steel Trust takes, because the protection from competition the tariff gives the trust allows it to extort these high prices. This toll is nearly $10 a year from each family, from this one trust, and there are 186 of them protected by the tariff in like manner.

WOMEN'S CLUBS.

In many towns Gainesville's size woman's clubs are numerous, and while they are criticised by some, they are certainly beneficial in many ways. In small towns and villages the club has been a special providence to many a weary mother or to the women of few early advantages and large aspirations. In our great cities women's clubs have been the first to institute social reforms and call public attention to crying evils. They have controlled superficial and selfish social customs until such customs have become obsolete. In home government and the training of children they long ago struck the key-note of a grand choral of reform which will become more and more harmonious as the years roll by. Out of the selfish "ego" they have evolved the progressive "we." They have strengthened two weak hands with the combined power of twenty or a hundred; they have taken a dull uncut gem of thought and polished it until it had been fit for the purest setting in refined gold; they have mastered great difficulties, conquered absurd prejudices, and solved difficult problems; and the grandest work of all has been to teach the women their own possibilities and the glory of their own heritage.

Will a merchant who is wise ever cease to advertise? Yes—when the trees grow upside down, when ice forms on the sun, when the sparrow weighs a ton, when gold dollars get too cheap, when women secrets keep, when a fish forgets to swim, when Satan sings a hymn, when girls go back on gum, when the small boy hates a drum, when no politician schemes, when mince pies make pleasant dreams, when its fun to break a tooth, when all lawyers tell the truth, when cold water makes you drunk, when you love to smell a skunk, when the drummer has no brass—when these things all come to pass, then man that's wise will neglect to advertise.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENNEY & Co., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

THE DESIGNER FOR SEPTEMBER

The woman who is planning an autumn outfit for herself or her young family will find The Designer for September a decided help; for, aside from the regular generous display of fashions there is a four-page article on "Garments for School." The millinery lesson describes the making of an autumn hat for a miss, and a full-page plate pictures the latest styles in hairdressing. "Points on Dressmaking" gives a lesson on the making of long coats. Among the literary features is "Our Children of Toil," by J. L. Harbour, describing the lives of the little people who labor in mill or mine to help fill the dinnerpail. "The Village Improvement Society" continues its pleasant gossip and strenuous efforts, and the two short stories are "Exhibit No. 42," by Charles Newton Hood, and "The Lesson of the Earthquake," by A. B Fox. Bertha Hasbrook in "In the Interest of Bread-Winning," suggests "Favor Making" as a lucrative employment for delt-fingered women, and Mary Kilayth gives a little lecture on "Fireplaces New and Old." A dialogue in which humor and sentiment mingle is "Blue and White" by Van Tassel Sutphen, and is sutiable for presentation by amateur actors. Grace Aline Luther gives a handsome design for a lace front to a princess dress, and Any Moeran begins a valuable series of lessons in Irish lace. The foregoing in but a part of the good things The Designer for September will contain, none of the regular departments being omitted, and many features added which cannot be enumerated in this limited space.

It has been frequently suggested, and the suggestion is a good one, for every farmer to place his name and the name of his farm on his road-gate. Not only would persons driving to a place more easily find it, but it would add more pleasure and interest to people driving from place to place. This last result would have special effect with regard to well kept and pretty houses. An observing person will seldom pass a beautiful farm without desiring to know who is its enterprising owner.

BAD BLOOD

"I had trouble with my bowels which made my blood impure. My face was covered with pimples which no external remedy could remove. I tried your Cascarets and great was my joy when the pimples disappeared after a month's steady use. I have recommended them to all my friends and quite a few have found relief."

LID IS ON TIGHT IN SAVANNAH.

Fruit and Soday Water Stands Are Closed as Well as Saloons.

Savannah, Ga., Aug. 14.—The lid was put on with a vengeance in Savannah Sunday.

Not only the saloons, but most of the fruit stands and some sodawater fountains being shut for fear of the law. There was only one place in the entire town where booze was being sold as usual, according to the rounders.

It was by far the lightest Sunday Savannah has known in years and years, if not in its entire history. Five cases were docketed against fruit stands, soda founts and confectionary stores for doing business.

Travel to the resorts, where the lid was not in evidence, was extra heavy and a big business was done at these places. From probably the most wide-open city in this section, Savannah has within a few weeks been transformed into one of the most tightly closed.

Several ministers Sunday night preached on reform. Dr. John D. Jordan, at the First Baptist church, said that spasmodic historical reform was not to be desired, but rather permanent reform, which he intimated would not result from the present effort.

Strange Epidemic Among Horses.

Norfolk, Va., Aug. 14.—Advices from Elizabeth City, N. C., received here says that throughout Hyde county a peculiar disease, somewhat like the staggers, had broken out among the horses, and they are dying in great numbers. It is reported that in one neighborhood around Middletown and Lake Landing, 60 horses have died recently from the epidemic. Many of the best animals are being sent to Washington to put them out of reach of the disease. The farmers already had sustained considerable loss as the result of the damaging of the crops by the heavy rains.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Drowned While on Charity Mission.

Richmond, Va., Aug. 14.—Dr. Daniel F. Ellison, member of the faculty and college physician of the Randolph Macon college at Ashland, Va., was drowned in Stagg creek, 4 miles from there Sunday, while on his way to pay a charity visit to an old negro patient. High water swept his buggy down stream. The doctor's 5-year-old son was with him, but was saved by his father placing him in an overhanging tree.

Don't Grumble

When your joints ache and you suffer from rheumatism. Buy a bottle of Ballard's Snow Liniment and get instant relief. A positive cure for rheumatism, burns, cuts, contracted muscles, sore chest, etc. Mr. I. T. Bogy, a prominent merchant at Willow Point, Texas, says that he finds Ballard's Snow Liniment the best all-round liniment he ever used. Sold by W. M. Johnson.

Former Supreme Court Judge Dead.

Los Angeles, Cal., Aug. 14.—W. H Whiteman, former judge of the supreme court of Arizona and later adjutant general of the territory, is dead at Terminal Island, of softening of the brain. Judge Whiteman was a native of Ohio and about 60 years of age.

Girl Is Burned to Death.

Austin, Tex., Aug. 14.—Cora Booth, the 15-year-old daughter of a prominent business man of this city, was burned to death Sunday while attempting to light a fire with kerosene. Her body was burned almost to a crisp.

For ¼ of a Century has been curing people of that almost universal disease,

CONSTIPATION.

as well as all other troubles caused by a torpid liver.

It is a purely vegetable compound, pleasant in taste, mild in action, thorough in results. Good for baby, parent or grandparent. If you have never used it, speak to your neighbor.

50c. and $1.00 per bottle at all Drug Stores.

CAR SINKS IN STAGNANT POOL.

Fifty Passengers on the Car Are Almost Drowned

Cleveland, O., Aug. 14.—A car containing 50 persons on the Cleveland and Eastern Traction line jumped the track Sunday night 8 miles southwest of Chardon, O., injuring eight and almost drowning a dozen others in a large stagnant pool into which the car plunged.

The car was headed towards this city and was going at moderate speed, but the accident happened so quickly that none of the passengers realized what had occurred until they were immersed in the foul water.

Not a passenger escaped a wetting, and a wild panic prevailed. The passengers and crew of a car following close behind went quickly to the rescue and saved a dozen or more from death.

The escape of some of those imprisoned in the submerged car was thrilling. Henry Hoffler, living at Chardon, the conductor of the car, received serious internal injuries and may die.

The injuries of the others consisted largely of cuts and bruises, some of them of a serious nature.

Sultan Passed a Good Night.

Constantinople, Aug. 14.—It is stated that the sultan passed a good night and that his condition Monday morning is somewhat improved. His reluctance to submit to treatment has hitherto complicated the situation, but one of the palace doctors has induced him to allow the employment of a simple appliance which gave immediate relief. The doctor, in recognition of his services, has been promoted to the rank of general.

The End of the World

Of troubles that robbed E. H. Wolfe of Bear Grove, Ia., of all usefulness, came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I would never have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50c. Guaranteed at all drug stores.

Man Shot to Death.

Gadsden, Ala., Aug. 13.—News has just been received of a deplorable and fatal shooting affray, at Springville, Ala., in which Edward Graham was killed by E. F. Osborn. The shooting occurred at the home of Osborn, and is said to have resulted over domestic affairs. At a preliminary trial Osborn was discharged on the ground that his act was justifiable. Both families are well connected in the community.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Summer Excursion Rates Via Atlantic Coast Line.

Summer excursion rates to all summer excursion points are now on sale via the Atlantic Coast Line. No trouble to answer questions. For rates, reservations, or any information, communicate with Frank C. Boylston, District Passenger Agent, Jacksonville, Florida.

Seaboard Parlor Cars.

The Seaboard Air Line operates buffet parlor cars between Waldo and Tampa on train leaving Waldo that connects with the morning train from Gainesville.

LIVING C I STILTS.

A Strange Sight In the French Turpentine Growing Country.

People live on sixteen foot stilts in the remarkable turpentine growing country of France. They don these stilts after breakfast and do not remove them again till it is time for bed.

There are two reasons for the wearing of stilts in the turpentine country. One is the turpentine gathering. The other is the herding of the great flocks.

The turpentine comes from the maritime pine. This tree is tapped, a shingle is inserted, and from the shingle is hung a tiny bucket into which the turpentine drips. The tapping process is like that used on the American sugar maple.

Young pine trees are tapped low, but with each year's passage the incision is made higher, so that it is not long before most of the trees are tapped twenty or thirty feet from the ground.

Hence the huge stilts of the workmen. On these stilts they traverse the flat country, covering five or six yards with each stride, and quickly and easily they collect the turpentine that overflows the little buckets hanging high up in the trees.

It is for herding also that the stilts are useful. The country is very flat, and the herdsman unless he continually climbed a tree would be unable to keep all the members of his huge flock in sight. But striding about on his stilts he commands a wide prospect. He is always, as it were, upon a hill.

The stilt wearers carry a fifteen foot staff with a round, flat top like a dinner plate. When it is lunchtime or when they are tired they plant upright under them the staff and sit down on its round, flat top. Then in comfort, seated so dizzily high, they eat and rest and chatter—a strange sight to behold.—New York Press.

A Craze Defined.

"What do you mean by saying something is the latest craze?" asked the man from abroad who carries a notebook.

"A craze," answered Miss Cayenne, "is something that amuses other people, but in which you yourself do not happen to be interested."—Washington Star.

Horticulture.

Knicker—Does your wife have you water the plants while she is away? Booker—Yes. I just put them under the place where the bathroom floor leaks.—New York Sun.

The truly proud man knows neither superiors nor inferiors.—Hazlitt.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that eats the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

AUTO AND STREET CAR CRASH.

Cars Were Crowded with People Returning from Ball Game.

Chicago, Aug. 14.—One woman was instantly killed, one was probably fatally injured and two persons were slightly hurt when an automobile in which they were riding was struck by a Chicago and Milwaukee electric car at Noyes street and the Chicago, Milwaukee and St. Louis railroad tracks in Evanston Sunday night.

The automobile, which was moving slowly, was crossing the track when the heavy electric car, traveling at a high rate of speed, darted out behind some freight cars standing on a sidetrack throwing the automobile and its occupants about 40 feet against a telegraph pole.

After the injured had been cared for, the trolley car was run to Highland park, where the crew was arrested.

Are Hurt in Smash-Up.

Oakland, Cal., Aug. 14—A Telegraph avenue trolley car, packed with people from Berkeley and Idora park, crashed into a Key Route electric train, bound from Piedmont to the ferry mole at Fortieth street crossing Sunday afternoon, injuring a score of passengers, two of whom may die. The injuries include fractured bones, cuts and bruises. One man's nose was partly severed, as was also the ear of a woman. A defective airbrake on the car is said to have caused the accident.

Galveston's Sea Wall

Makes life now as safe in that city as on the higher uplands. E. W. Goodloe, who resides on Dutton St., in Waco, Tex., needs no sea wall for safety. He writes: "I have used Dr. King's New Discovery for Consumption the past five years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone." Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at all drug stores. Price 50c and $1.00. Trial bottle free.

Returns After Long Absence.

Chicago, Aug. 14—After an unexplained absence of 31 years, Professor Charles H. Frye, former superintendent of the Chicago Normal school, of this city, has returned home. One of his first acts upon arrival at his home was to hand a roll of crisp $100 bills, totally $5,000, over to his wife with the remark: "Ask me no questions." Frye was 31 years old when he disappeared. Since that day no word had been received from him by his wife. He was recognized immediately in spite of his years and altered appearance. He is said to have made money in the Philippines where he resided for several years. His wish that no questions be asked him has been respected and he has settled down at home as though nothing had happened.

Why Fret and Worry

When your child has a severe cold? You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for colds, coughs, whooping cough and bronchitis. Mrs. Hall, of Sioux Falls, S. D., writes: "I have used your wonderful Ballard's Horehound Syrup on my children for five years. Its results have been wonderful." Sold by W. M. Johnson.

Senator Bailey to Address Gathering.

Dallas, Tex., Aug. 14—This city is filling up with Democrats who are arriving to attend Tuesday's state convention which will nominate a candidate for governor. The selection appears to be between Hon. T. M. Campbell and O. B. Colquitt. Those two candidates having received the most votes at the primary election. The candidates for state office were nominated at this primary. United States Senator Bailey will address the convention.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

Low Round Trip Excursion Rates Via Atlantic Coast Line.

Monteagle, Tenn.—Rate one first-class fare plus 25 cents. Dates of sale June 29, 30, July 3, 5, 19, 20, 21, 28, 29, 30, 31, August 16, 17. Final limit August 31, 1906.

For rates or any information see ticket agent or communicate with Frank C. Boylston, District Passenger Agent, Jacksonville, Fla.

A careful wife will always keep supplied with BALLARD'S SNOW LINIMENT

A Positive Cure For

Rheumatism, Cuts, Old Sores, Sprains, Wounds, Stiff Joints, Corns, Bunions and all Ills.

SHE KNOWS.

Mrs. C. H. Runyon, Stanberry, Mo. writes: I have used Snow Liniment and can't say enough for it, for Rheumatism and all pains. It is the most useful medicine to have in the house."

I. T. U. Convention.

Colorado Springs, Aug. 14.—The fifty-second annual convention of the International Typographical union began here Monday. Mayor Henry C. Hall and six other prominent citizens welcomed the three hundred delegates who represent 46,000 union printers, and President Lynch, of the International, responded. The chief event of the day was the formal presentation of books to the Amos B. Cummins library at the Union Printers' home, which is located her. The chief business before the convention, which will continue all this week, is the consideration of plans for carrying on the fight for an 8-hour day. About $800,000 has been expended by the organization up to date in conducting this fight.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Manager Dies of Typhoid Fever.

Salisbury, N. C., Aug. 14.—Captain E. C. B. Hambley, manager of the Whitney company, a corporation composed of Pittsburg capitalists, which is developing the Whitney waterpower, died at his Salisbury home Monday of typhoid fever. Captain Hamblin was 48 years old and had liver in the south for the past 25 years. He was intimately known to mining engineers all over the world. He will be buried here.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

Fierce Fire at New Orleans.

New Orleans, Aug. 14.—A fierce fire Monday morning threatened the wholesale business district. It broke out in the four story building on Magazine street near Lafayette, occupied by Pinski Bros. & Hoffman, commission merchants, and the Burkenroad-Goldsmith company, grocers. General alarms brought practically the entire fire department to the scene. The building was gutted, with an estimate loss of $50,000.

A Mystery Solved.

"How to keep off periodic attacks of biliousness and habitual constipation was a mystery that Dr. King's New Life Pills solved for me," writes John N. Pleasant of Magnolia, Ind. The only pills that are guaranteed to give perfect satisfaction to everybody or money refunded. Only 25c at all drug stores.

DANGERS OF DIETING

UNDERFEEDING LIABLE TO WEAKEN HEART'S ACTION.

Usually Appetite Is a Measure of Health, and the First Sign of Illness In a Man or an Animal Is Loss of the Desire For Food.

Professor Alexander Haig, an English dietary expert, has written from London to the medical fraternity of New York warning Americans against the popular belief that the average man eats too much. He says that the increasing number of deaths from heart failure is largely due to underfeeding.

The notion that science is a more unerring guide than is nature is constantly gaining ground. In the good old days men drank when they were thirsty and ate of whatever they wished until their hunger was satisfied. Now science condemns such foolishness as primitive. It prescribes one glass of water one hour before meals and one glass one hour after meals—no more, no less. If you happen not to be thirsty at those times, no matter, drink that amount anyway. If perchance you are thirsty and would like two glasses you must not yield; it is only nature that prompts you, and nature is an unsafe guide. Or, you may be "abnormally" thirsty at meals; nevertheless do not drink then.

As to our amount of food, we are directed to consume so many grams of the proteids, so many grams of the carbohydrates and so many grams of fat, while we hear learned discourses upon large calories and the supreme importance of exactly maintaining our nitrogen balance—whatever that may mean.

I have purposely not mentioned the precise numbers of grams of the different food elements, for the simple reason that our eminent authorities have not yet agreed upon this important point. All give different figures.

Scientists, however, following the lead of Russell H. Chittenden, Ph. D., LL. D., Sc. D., have pretty well agreed that the average man eats twice more than he needs. If half his customary amount of food does not satisfy him it ought to, they say, and it will eventually, provided he keeps on suppressing his natural and therefore unscientific instincts.

But just here lies a danger. It is true that one can accustom himself to a much smaller quantity of food than that to which he has been habituated and that eventually he will desire that smaller quantity and no more, but when he attains to this condition his digestive power will have been reduced by one-half. As a result he will lose from ten to thirty pounds in weight; that is to say, his muscles and organs will decrease by so much in bulk and strength. Now, if the heart decreases considerably in strength there will always be danger of its collapse, particularly if it be subjected to any extra strain, as when one runs for a car or rapidly up a flight of steps. Excitement alone may be fatal to a weak heart.

Rigorous dieting to reduce weight is always dangerous. A better plan is to work off the superfluous flesh by exercise.

Lack of sleep has a depressing effect on the heart, for during sleep cerebral circulation diminishes, when the blood can devote itself to the rest of the body.

Eating before going to bed, particularly if one is up late, is a good practice, it being most favorable to thorough body repair that the blood at night be rich in nourishment.

Accustoming the digestive organs to a small amount of food results in a decline of appetite, whereas our object should be to increase appetite and thereby strengthen our digestive powers by judicious exercise in the open air or in a well ventilated room.

If the doctrine that a small appetite is preferable to a large appetite be true—and this is what "economy in nutrition" teaches—then open air exercise, which manifestly increases appetite, must be injurious to health. Or why should we exercise to increase appetite if we may eat only so much?

The notion is wholly absurd. The first sign of illness in a man or an animal is loss of appetite. And usually appetite is a measure of health.

To build up the heart and muscular system generally we must vigorously exercise the muscles.

It is not enough that one should stuff himself, it is all important that he should desire every morsel he eats, and this he will do only if he undergoes general physical and mental exercise. Food that is ingested, and even digested, will be absorbed only by those organs that need it—that have been exercised. This fact explains why many persons that are good "feeders" are yet inadequately nourished. If they are brain workers and take no physical exercise their brains absorb what nourishment they need; the rest is excreted.

Magnificent as are the results of brain work we must bear in mind that there could be no result without the co-operation of the body, and that the body in its turn depends primarily on the integrity of its heart, lungs and stomach.—G. Elliot Flint in New York World.

A CURIOUS WILL.

It Was Made by an Insane Lawyer Who Died Penniless.

Several years ago Charles Lounsberry, a Chicago lawyer, who at one time ranked high in his profession, died an insane patient in the Cook county asylum at Dunning. Although this man died absolutely destitute and penniless, he left a "will." This will was duly sent to the probate court; but, there being nothing to probate, the document was merely placed on file. This peculiar will read in part as follows:

"I, Charles Lounsberry, being of sound and disposing mind and memory, do hereby make and publish this, my last will and testament, in order as justly may be to distribute my interest in the world among succeeding men.

"That part of my interest which is known in law and recognized in the sheep bound volumes as my property being inconsiderable and of none account, I make no disposition of in this, my will. My right to live, being but a life estate, is not at my disposal; but, these things excepted, all else in the world I now proceed to devise and bequeath.

"Item: I give to good fathers and mothers in trust for their children all good little words of praise and encouragement and all quaint pet names and endearments, and I charge said parents to use them justly but generously as the needs of their children shall require.

"Item: I leave to children inclusively, but only for the term of their childhood, all and every the flowers of the fields and the blossoms of the woods, with the right to play among them freely according to the customs of children, warning them at the same time against thistles and thorns. And I devise to children the banks of the brooks and the golden sands beneath the waters thereof and the odors of the willows that dip therein and the white clouds that float high over the giant trees.

"Item: To lovers I devise their imaginary world with whatever they may need, as the stars of the sky, the red roses by the wall, the bloom of the hawthorn, the sweet strains of music and aught else they may desire to figure to each other the lastingness and beauty of their love.

"Item: And to those who are no longer children or youths or lovers I leave memory, and I bequeath to them the volumes of the poems of Burns and Shakespeare and of other poems, if there be others, to the end that they may live the old days over again freely and fully without title or diminution.

"Item: To our loved ones with snowy crowns I bequeath the happiness of old age, the love and gratitude of their children, until they fall asleep."—Detroit News-Tribune.

A Picture of Stevenson.

Of Robert Louis Stevenson a writer says: "With his dark eyes looking as if they had drunk in the sunshine in some southern land, his uncut hair, his odd, shabby clothes clinging to his attenuated frame, his elaborate manners and habit of gesticulating as he spoke he was often mistaken for a starving musician or foreign mountebank. Continental officials doubted his passport's statement that he was a Briton. In France he was imprisoned, and Stevenson complained that he could not pass a frontier or visit a bank without suspicion. A slender, boyish presence, with a graceful, somewhat fantastic bearing and a singular power of attraction in the eyes and a smile were the first things that impressed you. Like his mother, he remained to the end of his life perennially young in appearance and spirits. The burden of years never weighed him down or dimmed his outlook. His face kindled and flushed with pleasure when he heard of a doughty deed, a spice of wit or some tale to his liking."

A Sponge Farm.

"I know of several sponge farms in the Mediterranean that pay well," said a druggist. "The sponge in the past was always gathered wild, like the clam. It is only of late years that a tame or cultivated sponge (a farm product like the oyster) appeared. The world owes sponge farms and sponge farming to Professor Oscar Schmidt, a Syrian. Schmidt some years ago made a study of sponges. He selected a good place in the bed of the sea, and breaking off pieces of living sponge, he planted them. The result was excellent. The planted sponges grew well or better than the wild. At a cost of $45 Schmidt raised 4,000 sponges worth $1,000. Oysters are cultivated. Lobsters are cultivated. Pearl bearing oysters are cultivated. Sponges are cultivated. Mark me, it won't be long before coral and whales will be cultivated—before the sea, like the land, will be owned and farmed by man."—St. Louis Globe-Democrat.

Men of the People.

The American tradition is the experience of the world everywhere. There is Washington and there is Hamilton, greatly born and greatly bred, but somehow the heart turns rather to Franklin and to Lincoln, as of more hope for the common man. "God made us many of" [illegible] in Emerson's Works.

LOW ROUND-TRIP RATES VIA LOUISVILLE & NASHVILLE R. R.

The Louisville & Nashville Railroad will sell round-trip rates from Jacksonville to points shown on dates indicated. Proportionately low rates from other points.

Mr. and Mrs. T. Jennings Cone and sons and Miss Tirzah Witherspoon, Mrs. Cone's sister, left yesterday for New York via Jacksonville and the Clyde Line. They will visit several points in New York State before their return.

READ THIS.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. DANIEL.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 828, St. Louis, Mo. Send for testimonials. Sold by J. W. McCollum & Co.

Misses Helen McArthur of Georgia and Clarie Stringfellow of Jacksonville have arrived in the city, and will remain here as guests of friends for the next few days. Both young ladies formerly resided here, and have many friends who are delighted to greet them again.

Young lady wanted to keep books and do typewriting—one that can take dictation preferred; not necessary to be an expert. Bookkeeping will be under direction of an experienced bookkeeper. Only written application considered. Address Eno, care The Sun.

Active man wanted to advertise, exhibit goods and manage branch of large mail order house. Salary $18 per week, expenses paid. Permanent position with advancement. Honesty more essential than experience. National Co., 720 Chestnut St., Phila., Pa.

Thomas Blair of the Southern Bell Telephone Company has returned from Micanopy, where he is arranging to install an exchange for the Southern Bell. Forty-two subscribers have already been secured, and a first-class exchange, with connection with the outside world, is guaranteed.

A letter received from Mrs. James M. Graham of this city, who has been in Virginia on a visit to relatives and friends for the past few weeks, requests that The Sun address be changed from Warm Sulphur Springs to Mountain Lake Park, Md. Mrs. Graham states that her husband's health is greatly improved, which will be gratifying information to his friends here.

The trading public of Gainesville will be pleased to know that Mr. J. D. Gardner, the energetic and polite manager of The G. W. Hyde Company, has become interested in the company and will be the active manager of this business. His success so far has been phenomenal, and there is no doubt under his vigorous management the business will grow and become still more popular if possible.

One of the most tastefully decorated windows in the city is a window in the store of S. F. Brooks, the grocer, which displays a new line of enamelware which he has just received, and which he proposes to make a specialty of. The line as displayed in this window shows off to advantage everything carried in the assortment by Mr. Brooks, and the arrangement has been the object of much comment. Mr. Brooks is a hustler, and notwithstanding that he is yet a very young man, he is possessed of that energetic spirit which is bound to win.

3-Acre Lot, good house, fine location, $2,000.

If you want the best on the market see Harmeling, he has it—prices right, too.

White Springs is Popular.

The Gainesville and Gulf excursion rate on Sunday between Gainesville and White Springs appears to be quite popular, as many are taking advantage of the opportunity to spend a day on the old Suwannee river at a reasonable rate. About twenty-five took advantage of the rate Sunday, and those from Gainesville who were there to meet friends from every point in South Georgia stated that there were no less than six hundred visitors to that popular resort on last Sunday, notwithstanding that the spring proper was overflowed, and in no condition for bathing purposes. White Springs appears to be a popular place with both Florida and Georgia people, and will continue so as long as the accommodations can be had at the hotels.

The Oak Hall Junior baseball team left Tuesday for Ocala, where they have arranged for a three-day series with the junior team of the Brick City. The Oak Halls, Jr., are in charge of Captain Vallery Newbern. They are among the best junior teams in the State, and it is to be hoped will add to their laurels. The team will play a series of three games in Ocala—Wednesday, Thursday and Friday.

George Main, who owns and conducts a fine truck farm at Rocky Point, was in the city for a few hours yesterday. Mr. Main also owns a fine orange grove of fifteen acres at Nocatee, and has a stock farm in connection. He shipped by express from his Rocky Point farm a registered Guernsey bull, which he proposes to keep on his South Florida place for the next few months.

LABOR Contracts, just the thing for farmers and turpentine men, 50c per dozen, $2 for 50, or $3 per 100. Cash in hand with order. Address, THE SUN, Gainesville, Fla.
